Good morning Shelly:

MUNDELL is coordinating our quarterly environmental sampling at our site, and would like to access the following EPA wells on **Thursday May 1** for gauging purposes:

MW-WES-01a  
MW-WES-01b  
MW-WES-01c  
MW-WES-02a  
MW-WES-02b  
MW-WES-02c  
MW-WES-03a  
MW-WES-03b  
MW-WES-04a  
MW-WES-04b  
MW-WES-05a  
MW-WES-05b  
MW-WES-05c  
MW-WES-06s  
MW-WES-06d  
MW-WES-07  
MW-WES-08s  
MW-WES-08d  
MW-WES-09s  
MW-WES-09d

I would expect the gauging activities to take ~ 2-3 hours. Please let me know the best time during the day to coordinate accessing these wells, and let me know if you have any questions.

I was also wondering if you might be able to provide me with the well construction information (total depths, screened intervals, and installation dates) for the new wells installed this winter.

Sincerely,
